Our Philosophy

Enthymesis Wellness Ariá Estate Hotel & Spa

In the land of Mani, where stone, sea, and sun come together to create a place of authentic Greek vibrancy and simplicity, Ariá Estate offers an experience of profound well-being.

Inspired by tradition, nature, and the wisdom of ancient Greek healing practices, we have created rituals which connect the body to the land.

Set within the unspoiled landscape of Mani, our spa treatments become an experience of grounding, tranquility, and reconnection with the essence of Greek wellness.

Delving deeply into the ancient Greek traditions of healing, the wisdom of our physicians and philosophers, as well as the effects of herbs and oils on health and well-being, we have developed a care method that is deeply therapeutic.

Based on Hippocrates' five different temperaments, our approach is revolutionary, offering holistic care for both body and mind.

Treat yourself like the Greek Gods.

The 5 Elements

Each individual is governed by one of the five elements and a "humor," which define specific physical traits and potential imbalances.

Complete Care for Body & Mind

In our spa, our therapists will guide you towards a holistic therapeutic plan, including body therapies, massages, facial treatments, sauna, hammam, diet, and exercise.

The Hippocratic Method

Hippocrates' method is one of balance—adding what is missing and removing what is in excess.

Using pure oils and herbs from Greece, along with our signature treatments, we restore harmony to your body and spirit

Enthymesis Wellness, inspired by the healing principles of Hippocrates, unites Greek nature, holistic knowledge, and modern wellness science.

It was founded by Argyro Gerochristou Bolovinou, author of the Greek translation of "The Canon of Medicine" by Avicenna, with a vision to revive the Hippocratic philosophy within the world of wellness — in Greece and beyond.

Recharge & Unwind

Each Enthymesis Wellness Ritual is a complete ceremony of balance and renewal.

We harness the sauna, with its dryness and heat; the hammam, with its moisture and warmth; the refreshing plunge and the cool hydro-massage waters — combined with targeted massage techniques and botanical oils.

Deep Relaxing Massage

Combining pure, organic oils from rosemary, arnica, olive oil, and soothing essential oils like bergamot and pine, this full-body massage aims to calm both your body and mind.

Deep Tissue Massage

We use the therapeutic and soothing properties of Hypericum oil, arnica, and calendula for this treatment

Body Scrub

🕒 25'

An exquisite scrub made from blackberries or sea salt combined with Epsom salts.

This treatment clears your skin of dead cells while rejuvenating tired muscles and calming your mind with the aromas of orange and cedar from Greek forests.

Signature Therapy

It includes a deep relaxing massage using organic oils such as olive oil and Hypericum oil for the body, blackcurrant oil for the face, and rosemary oil for the scalp.

The treatment concludes with coconut butter and shea butter, leaving your fiery skin silky smooth and balanced.

Dominant Element Water

Water is the essence of life, but excessive water in the body can cause imbalances. If you are calm, gentle, accommodating, heavy, serene, and sensitive, our treatments will help eliminate excess moisture, restoring your inner harmony.

Dry Brush Exfoliation

🕒 25'

Body brushing with a dry brush is one of the oldest techniques for reducing moisture and stimulating circulation.

This method removes dead skin cells, increases body warmth, and enhances lymphatic flow. The treatment is completed with the application of a light, dry grapeseed and oregano oil, providing toning and a refreshing sensation.

Cellulite Treatment

🕒 60'

When the water element dominates, cellulite becomes more pronounced.

Through a unique lymphatic and energy massage using a blend of organic oils enriched with grapefruit, cypress, and lemon essential oils, excess water evaporates, metabolism is boosted, and cellulite visibly reduces.

Lymphatic Massage

🕒 60'

A gentle, almost imperceptible massage with rhythmic, pulsating movements stimulates lymphatic flow and facilitates drainage towards the lymph nodes and kidneys.

We use lightweight organic grapeseed oil infused with locally sourced oregano oil to help reduce excess moisture and phlegm.

Deep Relaxation Massage

🕒 50'

Combining pure, organic lemon and eucalyptus oils, this treatment utilizes the warmth of melted massage wax as it spreads over the body, offering deep relaxation and rejuvenation.

The soothing heat calms both body and mind while enhancing natural internal warmth, promoting well-being and balance.

Dominant Element Earth

If you are introverted, prone to dryness, coldness, melancholy, yet deeply creative and wise, you, like the earth, need warmth and moisture to flourish.

This collection of treatments is designed to restore balance and vitality to your body and spirit.

Deep Relaxation Massage

🕒 50'

Immerse yourself in the therapeutic power of a deeply relaxing massage using premium organic St. John's Wort oil, rich in hypericin and hyperforin.

Infused with calming lavender, nourishing olive oil, and soothing chamomile, this treatment will rejuvenate your body and mind.

The experience is completed with a luxurious body butter enriched with lavender and ylang-ylang, enhancing the profound calming effects of the massage.

The treatment concludes with the application of a deeply nourishing body butter enriched with lavender and ylang-ylang oils, providing intense hydration and a soothing sense of tranquility.

Aromatherapy with Warm Candle

Experience the enchanting sensation of warm candle wax infused with wild rose, sweet ylang-ylang, and lavender oils. As the warm wax drizzles onto your skin, a deep sense of warmth and balance envelops you.

This therapeutic ritual is further enhanced by a specialized aromatherapy technique applied along the body's energy channels (meridians), restoring harmony and inner peace.
