## KERAMOS ATHENS

Keramos Athens has been inspired by travelers for travelers. A place where we would stay if we were visiting Athens and a place we would long to come back to, at any time. The building is a 1930s mid-war abandoned house, with simple lines and a BAUHAUS inspired facade. The original character of the house is still obvious even after the extensive renovation. Guests get to live in an original Athenian home,

like real locals. Located within the Athens Historical Center area of Keramikos, offers walking distance to the city center and all major sites, while the Metro Station "KERAMIKOS" is 5 minutes walk. Keramikos is a lively area with upscale restaurants, bars and clubs, together with the adjacent areas of Gazi and Metaxourgio. At the same time, the location is a neighborhood, offering you the quite and peaceful sleep that you need.

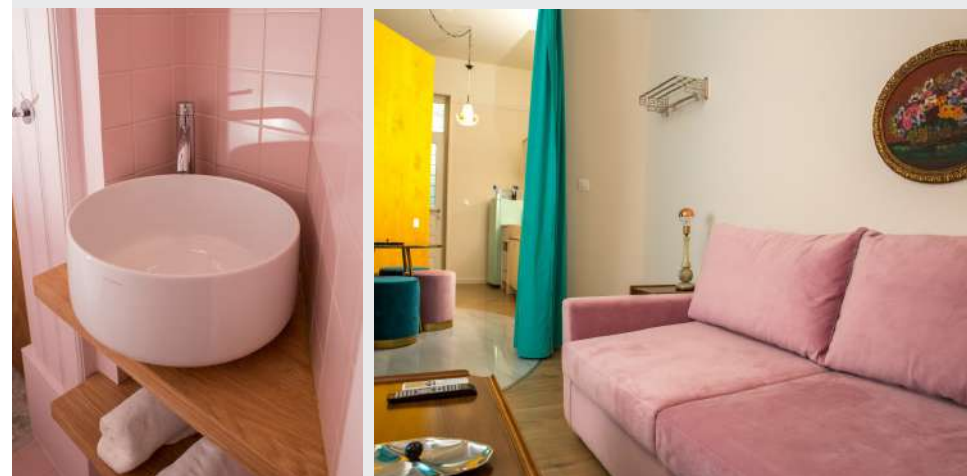

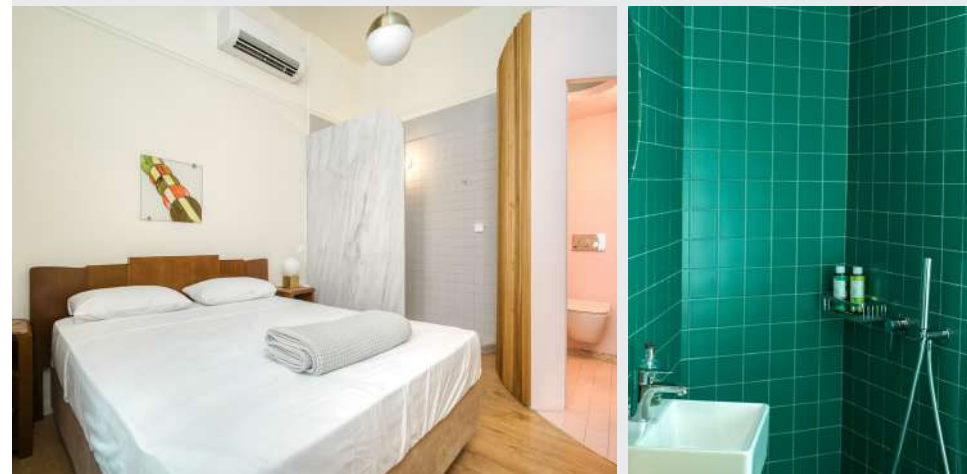

# ACCOMMODATION

Keramos Athens consists of 4 comfortable apartments and can host 1-4 guests, offering you everything you need.

- Washing machine, iron, ironing board
- Espresso machine (with complimentary capsules)
- Fully equipped kitchen
- Comfortable mattresses
- and many more complimentary benefits!

## Apartment A1 – The marble luxury apartment

A luxurious apartment, perfect for hosting 2 or 4 guests, characterised by marble elements, like the en-suite shower of the bedroom, the circle shaped floor of the living area and the kitchen's marble bench and sink that used to be part of the house since the 1930s. Made out of pure white Pentelikon marble, the same marble type with the Acropolis that today has rare quantities in the market. The bedroom features a queen bed with deluxe mattress and an en-suite WC and shower. The living room sofa turns into a queen size bed and the guests have their own WC with shower. A fully equipped kitchen with brand new appliances (oven, microwave, toaster, espresso and filter coffee machines) gives guests plenty of the space to prepare any type of meal, from breakfast up to a 5 course meal! The space features a muted color palette, energized by splashes of vibrant colors, in walls, fabrics and objects. With 2 bathrooms and 2 showers, it provides the necessary space between the 4 guests, while it is still ideal for use by only 1 couple. The washing/drying machine plus the iron and ironing board will allow you to freshen up your clothes before flying back home. Enjoy the perfect atmosphere thanks to the apartment's 3 A/C units.

## Apartment A2 – The signature studio

A studio that feels like a whole apartment, consisting of the bed zone, the kitchen zone and the living zone, all under 1 roof with the ceilings at 4,75 meters. More spacious than many apartments and with a bathroom more spacious than you can imagine. A desk will allow any remote worker to spend some time (hopefully a very little amount!) working using the ADSL high speed Internet. The deluxe CANDIA STROM mattress will make your sleep a totally new experience. Enjoy the perfect atmosphere thanks to the apartment's powerful A/C unit.

## Apartment B1 – A luminous high ceilings apartment

A luminous apartment on the upper floor. The high ceilings and the parquet wooden floors give the essence of how traditional Athenian homes used to be. Colorful, with a deluxe CANDIA STROM mattress in the bedroom and an extra large sofa/bed for 2 additional adults. The bedroom's en suite wc/shower and the second wc/shower will provide to the 4 guests the necessary privacy. The kitchen has all the necessary equipment and the washing/drying machine will prove to be your best friend, especially if you are coming from an island and your clothes still have the essence of the sea! The smart lock will allow you via electronic key (bluetooth enabled mobile required) to enter the apartment at any time. Enjoy the perfect atmosphere thanks to the apartment's 3 A/C units.

## Apartment B2 – A Truly Athenian Apartment

In this 2 bedrooms apartment, featuring CANDIA STROM deluxe mattresses, with exquisite mosaic floors, you will experience living as an Athenian. With an espresso machine, filter coffee machine, toaster, boiler, microwave, oven and a fully equipped kitchen, enjoy your breakfast-lunch-dinner at the dining table. The washing/drying machine will prove to be your best friend, especially if you are coming from an island and your clothes still have the essence of the sea! The smart lock will allow you via electronic key (bluetooth enabled mobile required) to enter the apartment at any time. Enjoy the perfect atmosphere thanks to the apartment's 3 A/C units.
